This Agreement

By this Agreement Integrated Technologies Ltd has contracted Prof. Zhouping Wang and his development team to develop the reagents for a chemiluminescence assay (The Assay) to measure the amount of Adenosine Tri-Phosphate (ATP) on surfaces and incorporate them into a disposable system. The full Requirement Specification for the Assay is presented in Appendix A.

Scope of the Agreement

The Development of the Assay covered by this Agreement will comprise the following stages:

- 1/. The design of the Assay reagents
- 2/. The validation of the Assay reagents
- 3/. The incorporation into a disposable plus Assay (The Disposable)
- 4/. The validation of the Disposable
- 5/. The development of a "Pilot" manufacturing line for the Disposable
- 6/. Transfer of all information to Integrated Technologies Ltd in sufficient detail to allow it to manufacture the Assay in the Disposable in production volumes (Production). This documentation package is detailed in Appendix B

The Development Plan

A plan of activities clearly incorporating each of the steps described in the Scope of the Agreement has been developed by Professor Zhouping Wang and is presented in Appendix C

Reviews

On a regular basis Integrated Technologies Ltd will monitor Prof. Zhouping Wang progress against the Development Plan

This monitoring will be undertaken at a review meeting between the project leader of Prof. Zhouping Wang group and a designated employee or delegate of Integrated Technologies Ltd

The review meeting will take place not less than once per month

Any deviations from the plan, or occurrence which might alter any scheduled delivery of any item in the plan, will be highlighted to Integrated Technologies Ltd as soon as it becomes apparent.

In witness whereof the parties have caused this agreement to be executed by their duly authorised representatives
